Casa Flia Chain - Riviera de São Lourenço

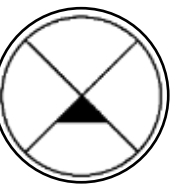

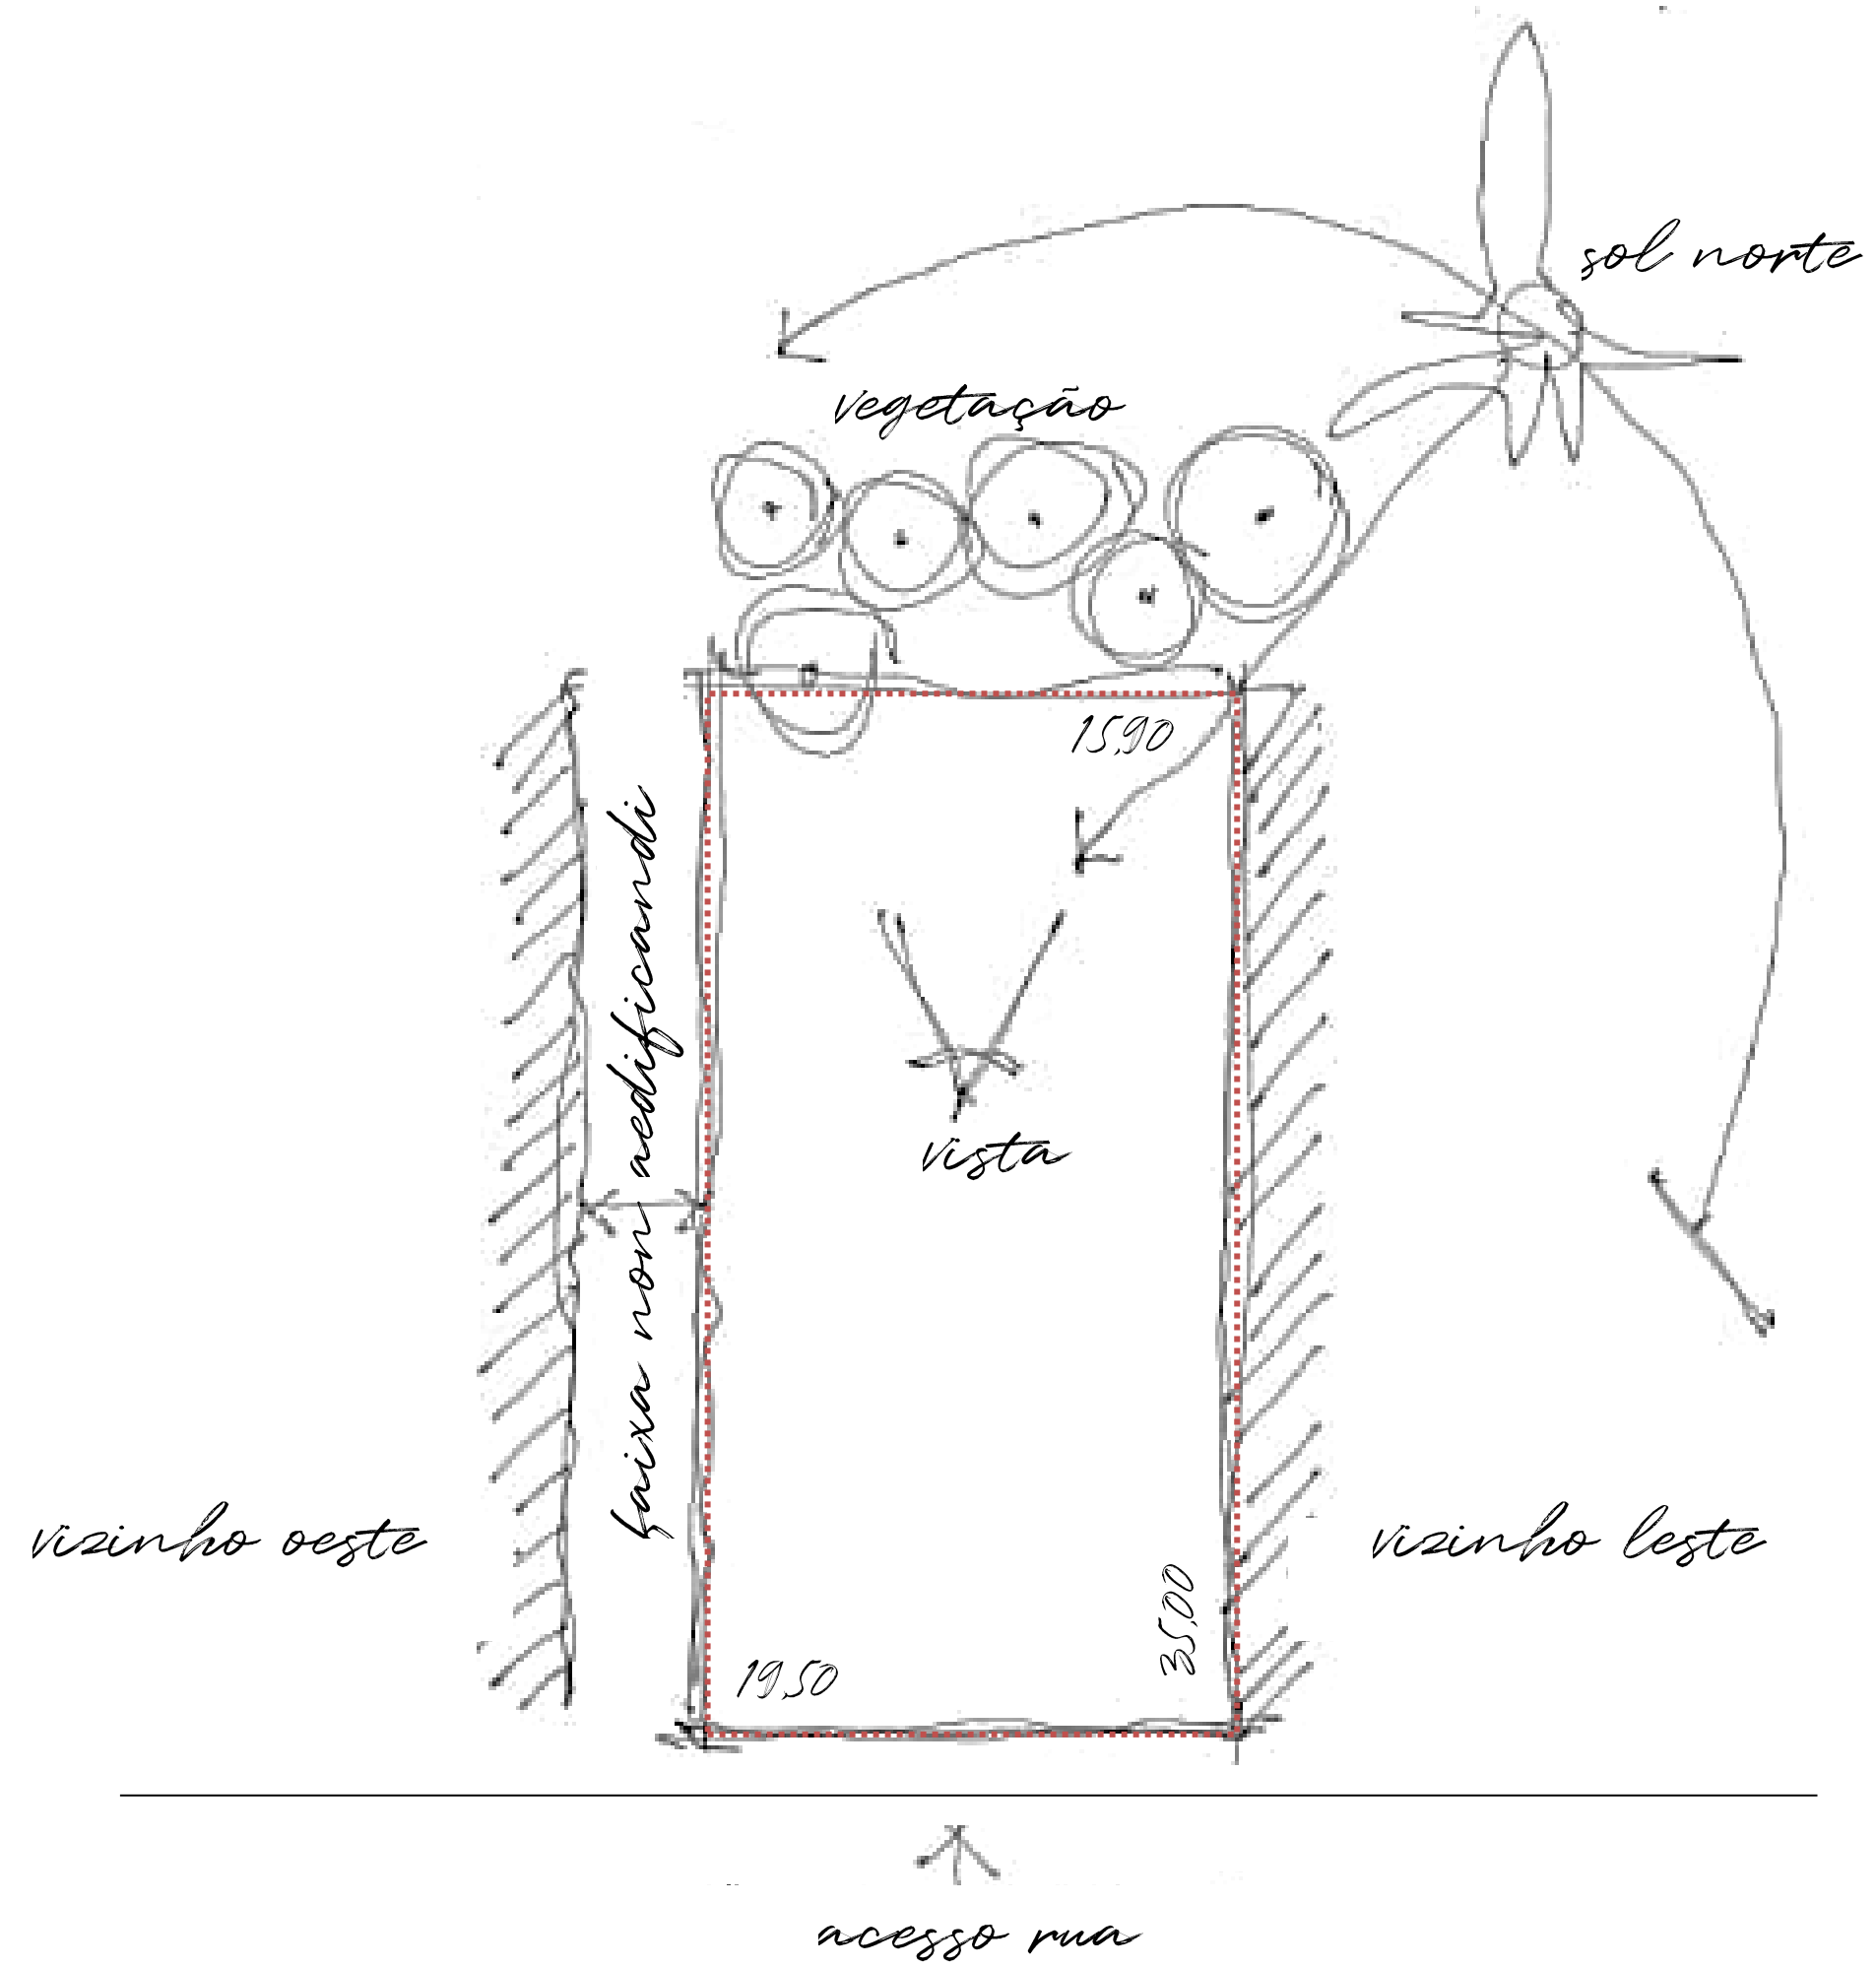

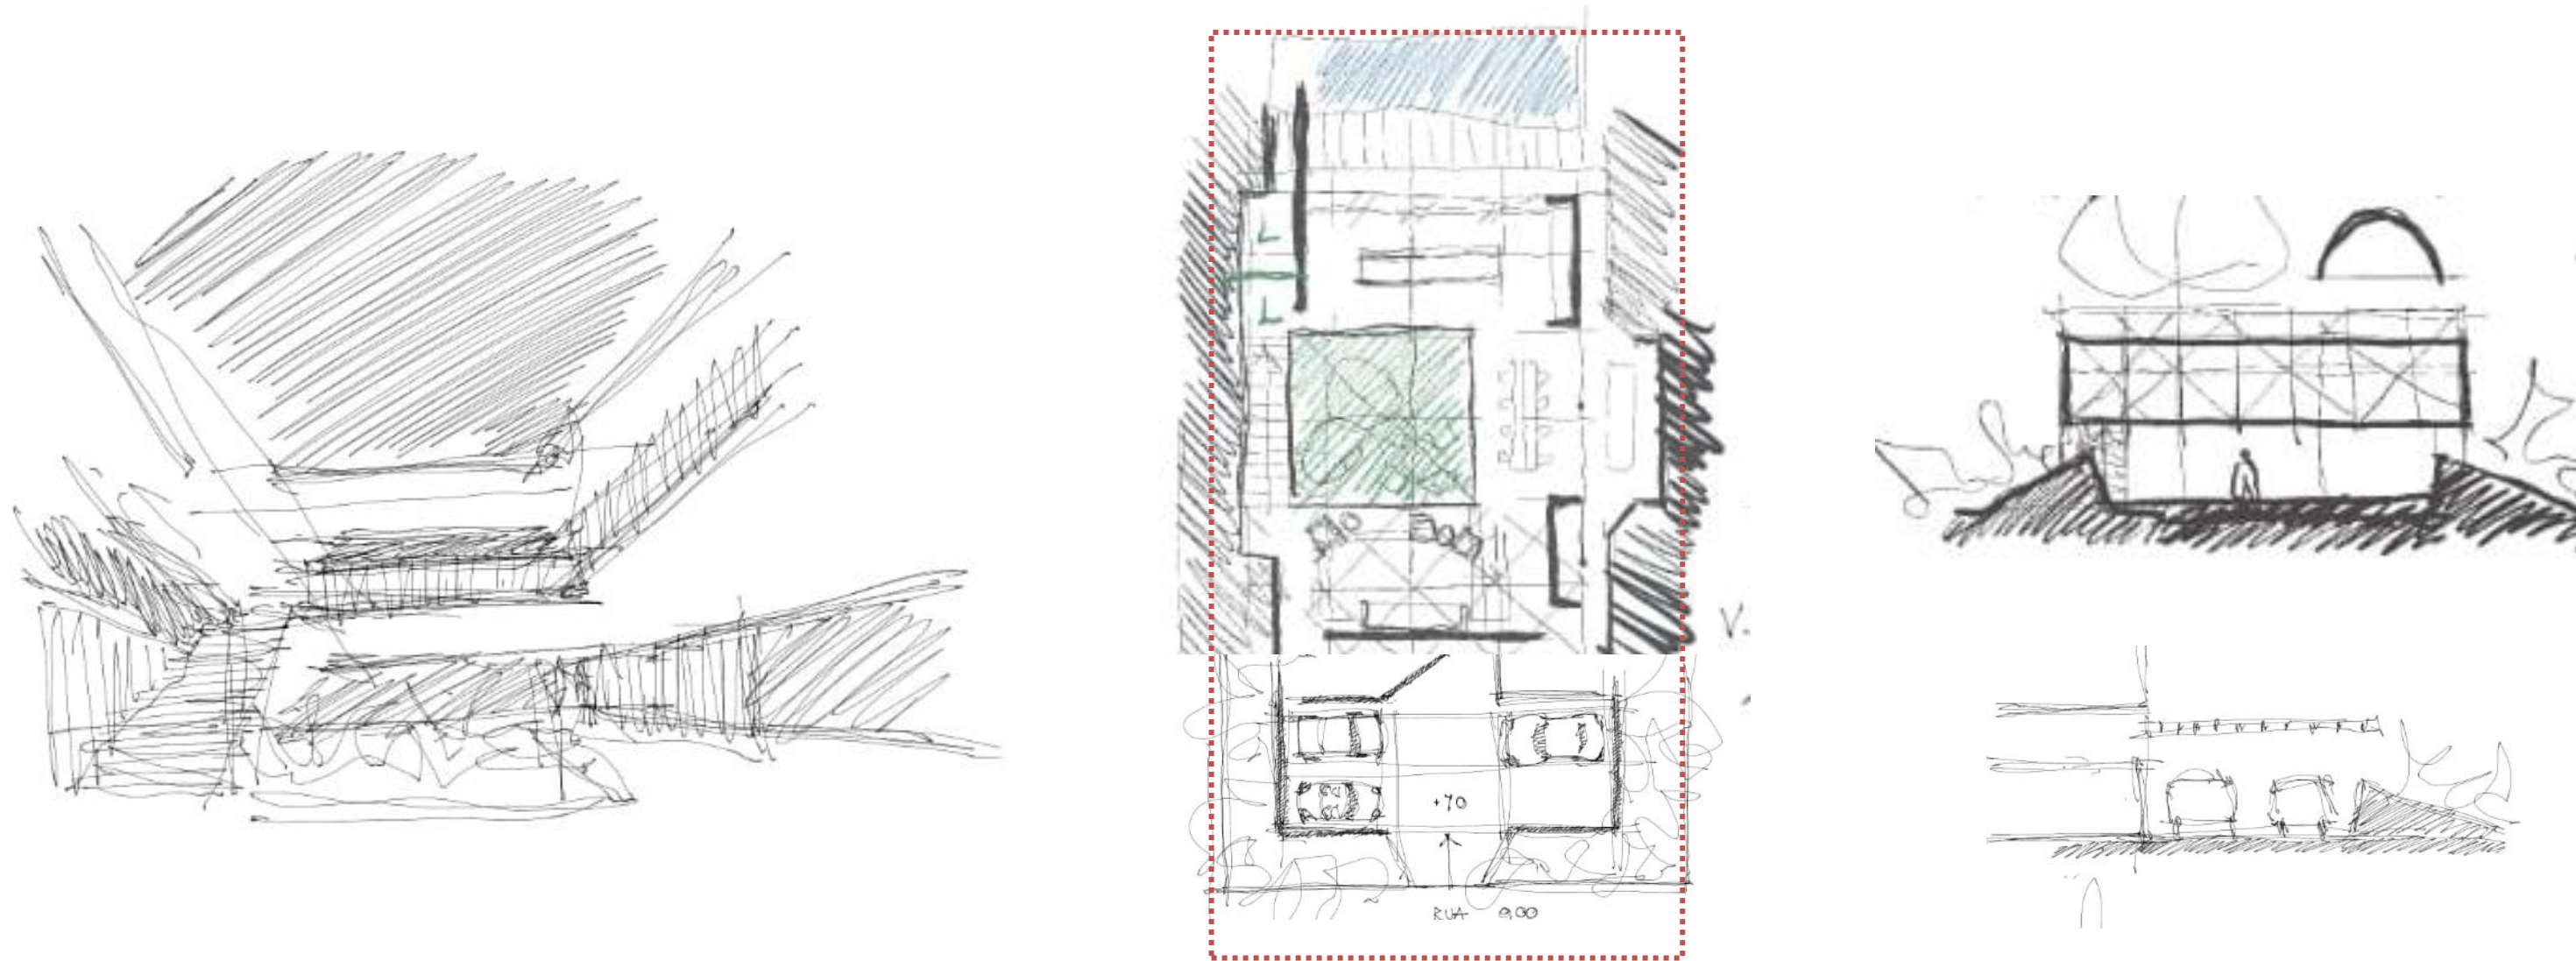

*“Todos os povos que produziram arquitetura desenvolveram o seu estilo próprio que lhes é tão específico como a sua língua, o seu vestuário ou as suas tradições populares.” **

* Autor: Hassan Fathy

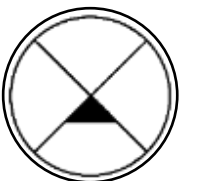

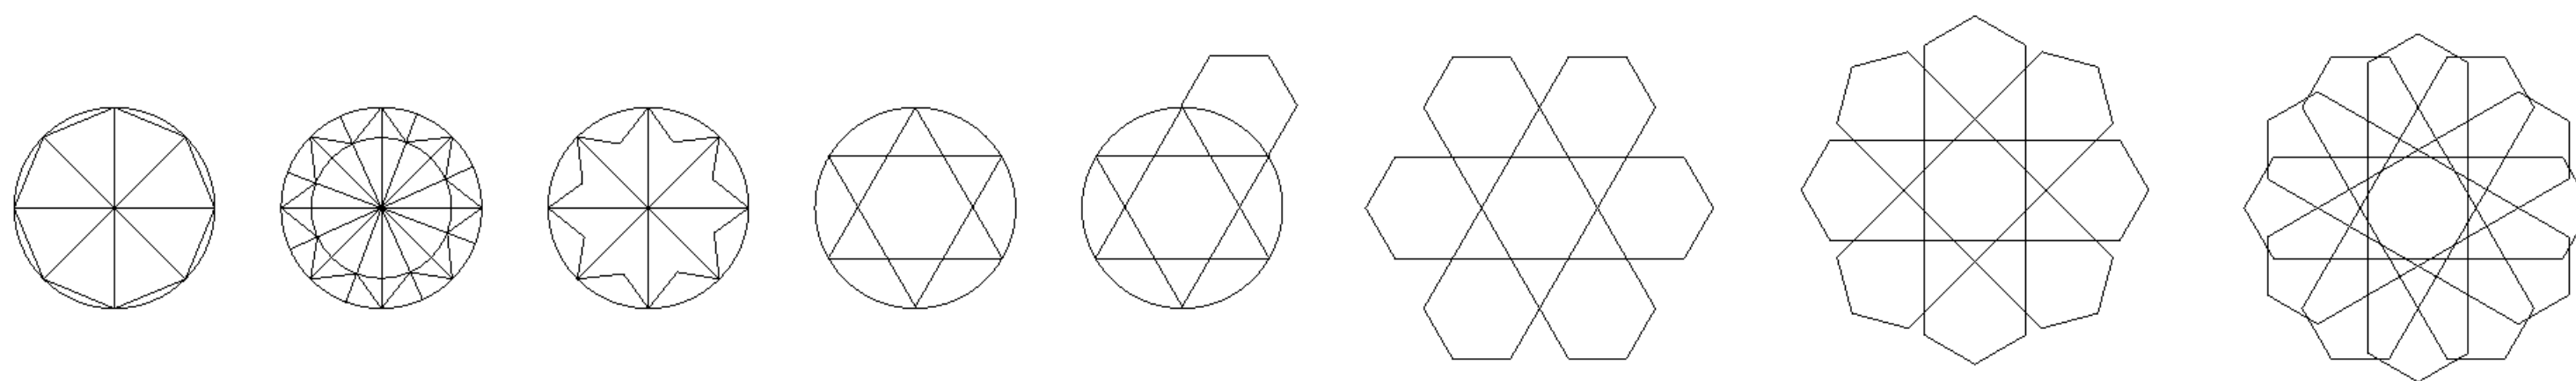

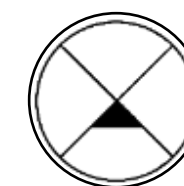

*“A casa islâmica representa um interessante fenômeno entre a vivacidade do interior e o silêncio do exterior... O desenho da casa tradicional volta-se para o interior do edifício. Neste enquadramento de reclusão, o pátio ganha um lugar de destaque” ***

*"Na cultura Islâmica, a geometria está em toda parte, é possível encontrá-la em Mesquitas, Madraças, Palácios e Casas. Esta tradição começou no oitavo século da era atual, quando artesões começaram a utilizar padrões decorativos pré-existentes, das culturas Romanas e Persas, e desenvolveram novas formas de expressão visual." ****
